

Who Do I report a Spill To???

Please find below a Spill Reporting Pathway guide that may assist should a spill occur. We have taken all reasonable care to ensure the details are correct at time of publication but details should be constantly checked.

Oil Spill Occurs in the water less than 3 nautical miles from the WA Coast

- ⇒ If in or around a port, notify the "Port Authority"
- ⇒ Notify the "Marine Environment Protection Unit" (Except if the spill is in the Swan River, then notify "Swan River Trust")

Oil Spill Occurs outside 3 nautical miles from WA Coast

- ⇒ Notify "Marine Environment Protection Unit" for spills from shipping
- ⇒ Notify the "Dept of Industry & Resources" for spills from petroleum facilities eg. Production platforms, floating storage and off take vessels, pipeline loading manifolds

Land Based Spills

- ⇒ Onshore operators of Petroleum sites (includes Petrol Storage, Refineries Or LNG Plants) must report spills greater than 200L to "Dept of Industry & Resources"
- ⇒ Chemical & Hazardous Spills at major hazard facilities, during transport and on mine sites notify "Dept of Industry & Resources" & "Dept of Environment" Pollution Response
- ⇒ Any unauthorized discharge to the environment (soil, air, storm water, drains) of liquids including acids, detergents, paint and oils notify "Dept of Environment" Pollution Response
