

# Oil & Fuel Spill Kit

## Workshop/Warehouse Range

### Truck Kit # SKHT

In today's environmentally aware world, the **Control, Containment & Clean Up** of Oil Spills on water & land is an essential part of a company's compliance with AS1940:2004, ISO14001, Unauthorised Discharge Regulations 2004 or other requirements. Oil & Fuel Spill Response Kits help meet these obligations.

SKHT  
Oil & Fuel Spill Kit

Spill Kit components being used to protect a stormwater drain

<b>Spill Kit type</b>	⇒	<b>Oil, Fuel, Diesel, Petrol, Solvents &amp; other Petroleum products</b>
<b>Application</b>	⇒	<b>Workshops, warehouses, loading docks, hard surfaces</b>
<b>Absorbent capacity</b>	⇒	<b>75 litres</b>

- ▶ Ideal Spill Response Kit for mine site & maintenance workshops, fuel & oil handling facilities, vehicle repair shops and transport depots.
- ▶ Ideal for use as a highly portable or mobile emergency response spill kit wherever oils and fuels are handled, transported and dispensed.
- ▶ Hang in stores, warehouses and maintenance workshops or carry on board service & support vehicles, trucks, tankers, trailers and utes.
- ▶ Spill Kit is supplied in a 'safety yellow' water resistant carry bag which is highly visible, compact and takes up only a small space.
- ▶ Velcro closure allows easy opening and closing with handles included for carrying or hanging on a wall.
- ▶ Contains a variety of Enviro-sorb™ meltblown polypropylene absorbents for oil and fuel spills as well as an organic floor absorbent to soak up oil, fuel, coolant, degreaser and other liquids.
- ▶ Absorbents are clean, non-allergenic, non-hazardous and dust free.

1	Refill Kit	Complete	SKHT-Refill

Manufactured In Australia

Includes label, laminated re-order form & operating instructions

Order Code: SKHT  
Shipping weight: 10 kg  
Dimensions: 84cm x 88cm x 35cm

Notes:  
Absorbent capacity will vary depending on liquid viscosity, specific gravity & temperature. Absorbents retain the characteristics of the absorbed liquid. Appropriate PPE should be worn and disposal of used absorbents should be via incineration or to approved landfill in accordance with local regulations.
