

Technical Data Sheet Spill Response Trailer # TRS7x50

The **Control, Containment & Clean Up** of Oil Spills on land and water is an essential part of a company's compliance with AS1940:2004, ISO14001, Unauthorised Discharge Regulations 2004 or other requirements. Spill Response Trailers help meet these obligations.

Type:

- Emergency spill response trailer with a variety of oil & fuel absorbents, clean up items and PPE.

Application:

- For all types of oil and fuel spills on a range of surfaces such as concrete, bitumen, hard stand or dirt as well as in the rain, on or around water.

Spill capacity:

- Oil & Fuel - 2100 litres

Features:

- Heavy duty, robust, industrial single axle trailer, 7 x 5, with extended drawbar and off road jockey wheel.
- Hot dip galvanised chassis with marine grade aluminium enclosure for maximum corrosion resistance in arduous mining or marine environments.
- Heavy duty, off road tyres & Sunraysia rims - landcruiser stud pattern with matching spare wheel and tyre.
- Fully water & dust sealed doors (side and rear) with internal bracing, recessed locks & gas struts. Doors can be used for shade or weather protection at a spill site.
- 150mm high roof rack.
- Integral storage shelves with labeled storage boxes.

Qty	Description	Notes	Specifications
1	Lot of clean up items including anti static shovel, metal shovel, broom & rake.		Manufactured in Western Australia
1	Lot of oil & fuel only absorbent pads, rolls, pillows & mini booms.	Oil & fuel spills on water or land	Dimensions: 4.0m (l) x 2.1m (w) x 2.0m (h)
